USER INTERFACE AND DESIGN

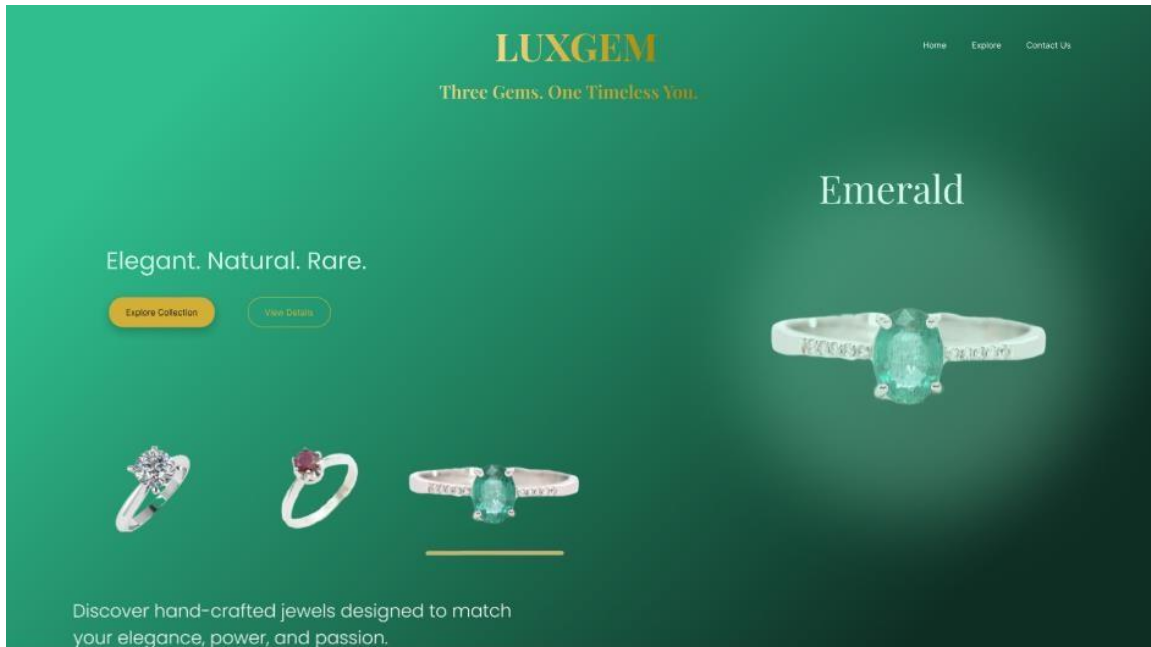

Comparison of UI design between Two Figma creation

Bad Website:

Good Website:

BAD WEBSITE (LUXGEM UI – VERSION 1)

1. Design Style

- Basic layout with limited styling.
- Background colors (diamond, ruby, emerald) appear disconnected.
- Lack of visual hierarchy and balance.

2. Content

- Only taglines like 'Timeless. Pure. Powerful.' are shown.
- No detailed descriptions of gems.
- No emotional storytelling or branding.

3. Navigation

- Minimal navigation (Home, Explore, Contact Us).
- No clear guidance between diamond, ruby, emerald sections.

4. Purpose

- Focused only on displaying rings.

- Feels like a simple catalog.

GOOD WEBSITE (LUXGEM UI – VERSION 2)

1. Design Style

- Elegant and luxury-themed layout.
- Consistent color palette matching each gem:
Diamond (light premium tone), Ruby (rich red), Emerald (deep green).
- Strong visual hierarchy with highlighted product.

2. Content

- Taglines supported with meaningful descriptions.
- Emotional appeal: elegance, royalty, and rarity.
- Clear brand message: 'Three Gems. One Timeless You.'

3. Navigation

- Clean top navigation (Home, Explore, Contact Us).
- Easy switching between collections.

4. Purpose

- Builds strong luxury brand identity.
- Creates emotional connection with users.
- Encourages exploration and engagement.

KEY DIFFERENCES

- Focus: Bad = only product display; Good = branding + storytelling.
- Design: Bad = inconsistent; Good = elegant and thematic.
- Content: Bad = minimal; Good = rich and engaging.
- Navigation: Bad = basic; Good = structured and user-friendly.
- Experience: Bad = catalog-like; Good = premium brand experience.
