USER INTERFACE AND DESIGN

Create a prototype with familiar and unfamiliar navigation elements. Evaluate ease of use with different user groups using proto.io.

1. WELCOME PAGE:

The Welcome Page of the destination booking app was created with a user-interactable Sign-In Button set against an attractive background to engage the user immediately.

Key UI Components:

1. **Header Text ("WELCOME TO DESTINATION"):**
 - The primary heading that establishes the app's identity.
2. **Promotional/Instructional Text ("DISCOVER THE INCREDIBLE INDIA!!!"):**

- A brief sub-heading that sets the theme of the application and encourages exploration.

3. Primary Action Button ("SIGN IN"):

- A high-contrast, bright green button designed to be the main focal point (Call to Action) to let users enter the app.

2. TRENDING STYLES PAGE:

Familiar Icons:

1. Back & Forward Arrows (< >) - Top Left:

- Standard navigation icons used to navigate back to the previous screen or forward.

2. Hamburger Menu (≡) - Top Left:

- A widely recognized icon representing a collapsible menu for additional app navigation.

3. Search Bar (Magnifying Glass) - Top Right:

- A standard input trigger for finding specific locations or keywords.

4. Three Dots (:) - Top Right:

- Indicates an overflow menu for extra settings or options.

Key UI Components:

1. **Prompt Text ("What is your next holiday plan?"):** * A clear prompt that encourages user interaction.
2. **List Selection ("Trending Styles"):** * Simple, text-based list items (ECR Beach Resort, Goa Beach Resort, Kochi Beach Resort) acting as selectable options.
3. **Explore Button ("explore"):** * A prominent purple call-to-action (CTA) button to move forward with the selected destination.

3. RESORT DETAILS PAGE:

Familiar Icons:

1. Top Navigation Icons:

- Retains the Back, Forward, Menu, Search, and More Options icons for consistent navigation flow.

Key UI Components:

1. **Resort Image:** * A large visual representation of the property (a hotel room with a sea view) to drive user interest.
 2. **Information Section ("Details"):** * A text block describing the resort's location, amenities (private pools, gardens), and environment.
 3. **Book Now Button ("BOOK @ \$100/d"):** * A high-contrast black call-to-action button that displays pricing upfront and allows users to initiate a booking.
-

4. CALENDAR PAGE:

Familiar Icons:

1. **Back Arrow (<) - Top Left:** * A large navigation icon used to safely return to the Resort Detail screen.

2. **Left/Right Arrows (<>) - Month Header:** * Standard navigation for switching between months (e.g., to move past February 2026).

Key UI Components:

1. **Date Range Display:** * Clearly shows the "Check in" (Feb 24) and "Check out" (Feb 27) timeline at the top of the screen.
 2. **Interactive Calendar Grid:** * A standard layout where dates are selectable. Selected dates (like the 24th) are visually highlighted with a purple circle.
 3. **Proceed Button ("reserve"):** * A large green button at the bottom to lock in the dates and advance to the payment section.
-

5. CONFIRM PAYMENT PAGE:

Key UI Components:

1. **Page Title ("Confirm Payment"):** * Clearly states the final review step of the transaction process.
2. **Booking Dates Summary:** * Visual confirmation of the "Check in" and "Check out" dates with a directional arrow.

3. **Price Breakdown:** * A clear, structured table showing the duration (4 days), Base Amount (\$400), Tax (\$20), and the final TOTAL (\$420).
 4. **Payment Button ("proceed to pay"):** * A full-width purple button at the bottom to complete the transaction.
-

6. PAYMENT SUCCESS PAGE:

Key UI Components:

1. **Success Icon:** * A large blue circle with a checkmark providing immediate visual confirmation that the transaction went through.
2. **Confirmation Text:** * Displays "Payment Success!!!" alongside a congratulatory "ENJOY YOUR VACATION!!!" message.
3. **Return Button ("Book other trip"):** * A green CTA button allowing users to return to the app's main flow to plan another trip, preventing a dead-end screen.
