

# USER INTERFACE DESIGN

Roll.No: 240701058

Name: ASHWIN C

## EXPERIMENT 7

Experiment with different layouts and color schemes for an app. Collect user feedback on aesthetics and usability.

### AIM

Design and compare 2 login screen UI layouts with different color themes and evaluate user experience.

### SCREEN DESIGN (Based on Your Images)

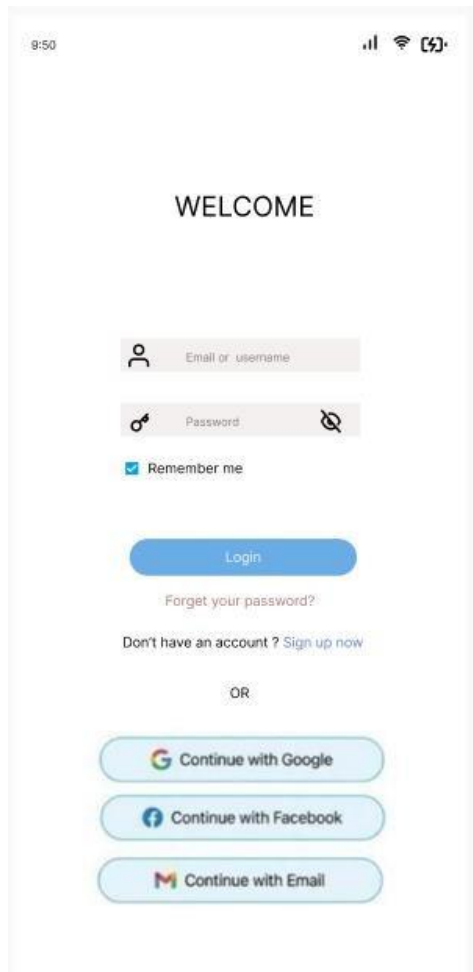

#### Common UI Structure (Both Layouts)

- Title: WELCOME / Welcome
- Input Fields:
  - o Email / Username
  - o Password (with visibility icon)
- Checkbox: Remember me
- Primary Button: Login
- Links:
  - o Forgot Password
  - o Sign Up
- Divider: OR
- Social Login Options:
  - o Google
  - o Facebook
  - o Email

## LAYOUT VARIANTS

### Layout 1 – Blue Theme (Minimal UI)

- Background: Light grey / white
- Primary color: Blue button
- Style: Simple, clean, basic
- UI Feel: Functional but less attractive

### USER FEEDBACK (UI BASED)

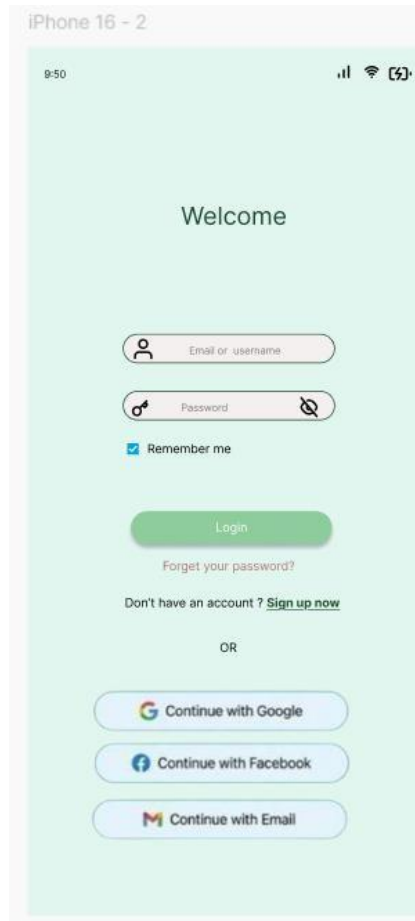

#### Layout 1:

- Simple and easy to use
- Needs better contrast
- Button looks flat

### Layout 2 – Green Theme (Soft UI)

- Background: Soft green gradient

- Input fields: Rounded with soft borders
- Button: Green with depth
- UI Feel: Clean, modern, balanced

## USER FEEDBACK (UI BASED)

### Layout 2:

- Clean and professional appearance
- Good spacing and alignment
- Better readability than Layout 1

## USER FEEDBACK FORM RESPONSES

Feedback collected via Google Form from test users. The following images show the actual form responses:

## Website Layout Feedback Form

Help us to improve our website by providing feedback on two potential layout designs..Please select the layout you prefer and share your thoughts.

### FEEDBACK SUMMARY

Preferred Layout: Neither / I need more information

### Design Aspect Ratings:

| Design Aspect                      | Rating |
|------------------------------------|--------|
| Readability of text                | Fair   |
| Use of whitespace                  | Fair   |
| Consistency across different pages | Good   |
| Aesthetic appeal                   | Poor   |

### **Specific Feedback:**

"Improve color scheme using a soft green theme"

### **Additional Ratings:**

- Responsiveness (adaptability to different screen sizes): 3 / 5
- Ease of finding main information/sections: 3 / 5

### **Most Successful Elements:**

- Overall Color Scheme
- Imagery / Visual Elements

## **FINAL RESULT**

### **Selected Design: Layout 2 (Green UI)**

#### **Reason:**

- Better visual balance compared to Layout 1
- Cleaner and more professional appearance
- Improved spacing and alignment
- Soft green color scheme preferred by users

## **FINAL IMPROVEMENTS**

- Improve color scheme using a soft green theme (as per user feedback)
- Add better contrast for text readability
- Enhance button styling to avoid flat appearance
- Improve accessibility (contrast & font size)
- Optimize responsiveness for different screen sizes

## **CONCLUSION**

The green-themed login UI (Layout 2) is the more effective design compared to the blue minimal UI (Layout 1) due to its cleaner appearance, better spacing, and professional look. However, user feedback indicates that further improvements are needed in color scheme refinement, contrast enhancement, and responsiveness optimization. The soft green theme direction aligns with user expectations and should be pursued with the suggested improvements for real-world applications.
